

16 September 1955

Memorandum for: Mr. Pforzheimer

Subject: Your Journal Entry No. 1 of 12 September

I discussed Mr. Reynolds' thoughts on handling Personnel interchanges with Congress with Col. White. He felt quite definitely that all legislative correspondence should be controlled in one place and I believe he will maintain this feeling. He did say that he hoped every possible action would be taken so that Personnel is completely informed at all times and has a record of all actions. I said I felt this was pretty well in effect already. I feel we should make one more review of our procedures, which I believe to be adequate, to make sure that there is no chance that Personnel can claim there is any lack of coordination of information.
